ABOUT ME

I am Baran, a creative web designer who likes to make websites. I know how to work with HTML and CSS, the programming languages needed to build websites and designs on the web. I have an eye for detail, I am extremely precise and I always want to improve myself.

EDUCATION

Application and web developer / Technical College Rotterdam

AUGUST 2017

After my education at the S.G. Spieringshoek I will continue at the Technical College of Rotterdam, The Netherlands. I would like to specialize myself in programming and designing.

HAVO / S.G. Spieringshoek

2012 – 2017

I have followed education on the S.G. Spieringshoek in Schiedam, The Netherlands. Here I learned Science and Health, but also Information technology, a computer subject including web development and design.

WORK EXPERIENCE

Deliverer | Thuisbezorgd

JANUARY 2018

I pick up orders at the restaurants and then I will deliver them to the customers. I do this by using an e-bike and my mobile phone where I can check my orders.

Employee food | La Place

SEPTEMBER 2017 – JANUARY 2018

My job was to make juices for the customers. I cut the fruits in pieces, so I could use the presser for the fruits and finally I poured the juice into glasses.
